CORALLY DAYS INTERNATIONAL

International Touring & 1:12th modified race from February 22th – 24th 2008 at Megadrom-Geilenkirchen, Germany

INTRO: Team Corally and Megadrom would like to invite you to the 20th annual CORALLY DAYS INTERNATIONAL, which will be held from February 22th to 24th 2008 in Megadrom-Geilenkirchen in Germany.

Since the founding of the company, Team Corally have been organizing an annual Open race meeting especially to conjure a good occasion for all Team Corally drivers to get together and exchange setup information. On Saturday evening, there will be a fantastic dinner banquet sponsored by Team Corally – don't miss it! Please fill in the entry form enclosed with entry-fee and send it to Megadrom-Geilenkirchen to enter. The number of entries is limited to 120. First come, first serve. All RC-drivers are welcome, no national or international license needed.

The very famous buffet at Saturday Night is included in the entry fee (excl. drinks).

PIT AREA: Tables, chairs and mains electric power will be available to all participants. Please bring your own connectors, power cables and transformers if necessary (220V supply with Euro connector). There is half a table per driver, ask the organizers if you require an additional space for mechanics if you have difficulties in getting it.

The whole pit- and tech-area is a legitimate smoking area – the whole facility is well ventilated. Of course no smoking on the rostrum allowed! Please accept the above in order to make the CORALLY INTERNATIONAL 2007 a pleasant event for all participants.

HOW TO FIND THE TRACK?

Geilenkirchen is located right at the border between Germany and the Netherlands. If you come from the Netherlands, go to Maastricht, (A2/E25) Sittard, Gangelt and Geilenkirchen. Approximately 500m before you enter city, turn left to Industrial area 'Kaserne', drive until you see a train bridge. There you have to turn right in front of the bridge, follow the road until it can only go right or left, then turn left, follow the street until you find Megadrom on the left side.

If you come from anywhere else, just head towards Aachen (A4/E314), then to Alsdorf, Geilenkirchen. Right before you enter city, turn left to Industrial area, drive until you see a train bridge. There you have to turn right in front of the bridge, follow the road until it can only go right or left, then turn left, follow the street until you find Megadrom on the left side.

LEGAL FREQUENCIES: The following list of crystals contains the legal frequencies for the CORALLY INTERNATIONAL. Entries with less than 3 legal frequencies will not be accepted and returned.

27 BAND				40 BAND				41 BAND

RULES: This is only a quick overview of the rules; race will be run according EFRA handbook 2006 if not specified otherwise. You can find complete rules at www.efra.se - All cars must be within the specifications at any time of the race (before and after the heat!).

DIMENSIONS:

- Maximum width (w/o body): 190mm
- Maximum width (with body): 200mm
- Maximum wheelbase: 273mm
- Minimum height: 115mm
- Minimum weight: 1500g
- Minimum ride height: 5.0mm

BODIES & WING: Follow EFRA2006 rules but all touring car (sedan) style 4-door bodies are allowed.

- Maximum wing chord: 40mm
- Maximum wing width: 190mm
- Wing endplates maximum: 40 x 25mm

TIRES & ADDITIVE: Only two sets of tires (= 8 tires) per driver are allowed. Tires have to be bought trackside and marked prior the run at technical inspection.

- Controlled tires CS22 JB.

BATTERIES: Maximum of 6 cells in Sub-C size and only NiMH-technology may be used. Cells have to be in the manufacturer's original heat shrink and be commercially available in the spirit of the sport, any kind of prototype or pre-production cells are illegal. Batteries according to EFRA 2006 - 2007 battery list

MOTORS: no motor limit.

OTHER TECHNICAL SPECIFICATION:

All cars must have independent suspension operating on all four wheels. No automatic steering or power/traction control is allowed; the function of steering and throttle may only be influenced by the transmitter. In no way may they be influenced by the movement or acceleration of the car. Any sensor or device that measures any movements of the car is not allowed. The only legal driver aid is the use of a current-limiter in the speed-control. The use of multiple-speed transmissions and slipper clutches is not allowed.

WARNING: If anyone gets caught breaking the rules regarding tires, additive, motors or batteries; - it may result in disqualification from the entire event!

CLASSIFICATION OF DRIVERS:

Qualification for finals will be based upon each driver's best single score achieved during the qualifying heats

(Classification of Drivers; 5.5.1.; EFRA Handbook 2006)
